

## Popcorn Instructions:

- Place on secure, level counter or table
- Plug into 110v line. If an extension cord is necessary, use only a heavy duty **25' or less** cord.
- Place ¼ cup of oil, 1 cup of popcorn and a spoonful of flavor salt (if desired)
- Turn on heat and motor
- Unit will pop until corn flows over top of kettle
- When popping is complete, turn off heat and motor, empty kettle into storage bin
- Scoop out desired amounts and repeat process
- Any questions, call 802-734-0223

**Do not leave heat on when kettle is empty**

**Unit must come back clean and in good working order or charge card will be charged.**
